Then, Client 'B' made a 2nd deposit \$5,000 → Client 'B' will not receive additional bonuses.

\$20,000	\$30,000	\$10,000	\$30,000

Max Total Bonus amount cannot exceed \$10,000

7. FXCC reserves the right to decline any Bonus request at its sole discretion, without the need to provide any justification or explaining the reasons for such a decline.
8. Bonus shall be added to the Eligible Client's trading account as credit, The Bonus is intended for trading purposes only and it cannot be lost. Any profit made by investing the credited bonus may be withdrawn from the account without any delays.
9. Withdrawal of funds from Eligible Client's trading account is allowed in part or in full and this will cause the Bonus Credit amount to be reduced in proportion accordingly.

Example

Client 'C' has the following balance available in his account:

Balance	Equity	Credit (Available Bonus)	Available (Free) Margin
\$7,000	\$14,000	\$7,000	\$14,000

Scenario A

Client 'C' has requested \$2,000 withdrawal → Received bonus will be reduced by \$2,000.

This will reflect on the Client's account as follows:

Balance	Equity	Credit (Available Bonus)	Available (Free) Margin
\$5,000	\$10,000	\$5,000	\$10,000

Scenario B

Client 'C' has requested to withdraw the full amount (\$7,000) → Received bonus will be entirely removed.

This will reflect on the Client's account as follows:

Balance	Equity	Credit (Available Bonus)	Available (Free) Margin
\$0	\$0	\$0	\$0

10. **Cashback:** Bonus Credits will be partially settled and converted into withdrawable Balance instantly after closing each trade regardless of the amount as per next paragraph.
11. The execution of 1 standard lot round turn shall transfer an amount of \$1.0 (or equivalent) from Bonus Credit to withdrawable Balance.

Example

Client 'D' has the following balance available in his trading account:

Balance	Equity	Credit (Available Bonus)	Available (Free) Margin
\$1,000	\$2,000	\$1,000	\$2,000

Client 'D' traded a complete transaction of 1 standard lot EURUSD (i.e. opened and closed the order), with a profit of a \$100 → This added the following extra two entries into the account history:

- Credit Out -\$1.0 (i.e. the bonus amount is deducted from Credit)
- Bonus Deposit \$1.0 (i.e. the bonus amount is converted into real money and added to the account balance).

And was reflected on the account balance as follows:

Balance	Equity	Credit (Available Bonus)	Available (Free) Margin
\$1,101	\$2,100	\$999	\$2,100

- The Bonus Credit can be used as a trading credit and shall be available on the trading account for 50 calendar days since the date of receiving the Bonus ("eligibility period"). After this date, any remaining Bonus Credit shall be removed from the account.
- During the eligibility period if the Eligible Client's account balance (including the floating profits and losses) reaches a level equal or below 30% of the available Bonus Credit (in other words: account's equity reaches a level equal or below 130% of the available Bonus credit), the available Bonus Credit amount shall be automatically removed (credit out), stored in a separate "Saving Account" and it will be used to reward the aforementioned Eligible Client for any further trades executed with the remaining balance of that account as per paragraph 10 until the end of the eligibility period.**

Example

Client 'D' has the following balance available in his trading account:

Balance	Equity	Credit (Available Bonus)	Available (Free) Margin
\$1,000	\$2,000	\$1,000	\$2,000

- 30% of the available Bonus (credit) = \$300

Assuming Client 'D' has an open trade of 1 lot EURUSD with a current total floating loss of \$700, this means → Balance + Floating profit/loss = \$1,000 - \$700 = \$300

In this case, the bonus will be automatically removed and it will reflect on the account as follows:

Balance	Equity	Credit (Available Bonus)	Available (Free) Margin
\$1,000	\$300	\$0	No Free Margin

For current and future trades during the eligibility period, the Client shall receive a deposit of \$1.0 per lot that will be deducted from the saving account.

IMPORTANT NOTICE:

- Due to volatile market conditions that may persist, it may not always be possible to remove the Bonus (credit) at exactly 30%.
- The normal margin call levels will remain in effect at all times regardless if the credit is still in the customer's account or not.

14. FXCC shall not be liable for any margin call or losses that the Client may suffer, including but not limited to losses due to Stop-out Level, if the Bonus is withdrawn for any reason pursuant to the Terms and Conditions set out herein.
